Rachita Bisht

Mobile : (+91) 8329133489

Email : rachitabisht7102@gmail.com

- Software Developer with 1+ years of experience in the IT industry with good knowledge of knowledge and experience using **Spring Boot** framework and Spark application.
- 1+ years of experience in deploying and supporting client facing web applications.
- Experience in Object oriented design and development using Java and Spring Boot.
- Hands on experience developing microservices using Spring Boot, Apache **Spark**, **REST** APIs, JSON and **React**.
- Worked closely with the product owners in implementing Behavior Driven Development (BDD).
- Worked with Devops, Git, Swagger API, Postman and cloud tools like Azure, Docker, Kubernetes and Jenkins
- Experience in using Apache Maven and npm for build automation and dependency management and managing artifacts in Jfrog Artifactory and Sonatype Nexus Repository.
- Good knowledge of Design patterns and **Solid** principles.

Education

B.E. in Artificial Intelligence and Data Science 9.5 CGPA **2020-2024**

Skills and Overview

Programming Languages	Java, C, C++, HTML, CSS, SQL, JavaScript, Typescript, Python
Web Development Tools and Scripting Languages	Spring, Web Services, REST, Mockito, Junit, React, Vite, GIT, Eclipse, Spring Tools Suite, Visual Studio Code, Intellij IDEA, Angular, PyCharm, GitHub
Devops and cloud tools	GIT, Maven, Npm, Docker, Kubernetes, Jenkins and Azure
Databases	PostgreSQL, MySQL
Standards & Methodologies	Scrum, Agile
Operating System	Windows, Mac
Additional	REST APIs, DSA, Devops, GenAI

Work Experience

Société Générale Global Solutions, Software Developer **19 August 2024 - Present**

- Developed and optimized microservices with Spring boot and Java, improving performance by **20%.**
- Implemented RESTful APIs for seamless communication between front-end and backend systems, ensuring optimal performance and data integrity.
- Collaborated with other developers, designers and project owners to ensure successful project delivery.
- Participated in code review to ensure the quality and maintainability of the codebase.
- Streamlined CI/CD pipelines, cutting deployment time by **40%** with added security
- Worked closely with cross functional teams to implement solutions that aligned client expectations.

Projects

- **Storage, Restitution and Certification**
  Contributed to a complex data processing and certification platform involving multiple components built with Spring Boot. Designed services to store raw data in the Azure Data Lake and transform it to structured format using Spark Jobs. Certified through secure REST APIs via custom UI.
  Technology used – Spring Boot, Spring data JPA, Postgres, Apache Spark, REST APIs, Kubernetes,
  Docker, Jenkins, Azure, React

- **Expense Tracker**
  Spring Boot Application to manage expenses made by the user, generates various alerts if expense exceeds desired limit. This application can store, retrieve, update and delete expenses.
  Technology used - Spring Boot, Spring data JPA, Spring Security, Postgres, Apache Spark, REST APIs and Angular.

Certifications and Achievements

Azure 900 Certification

Languages

English, Hindi and Marathi
